## PROFILE

Results-driven Analytics Engineer with 4+ years of experience in data analytics, SQL development, and business intelligence. Specialized in building scalable data models, optimized ETL workflows, and executive-level dashboards that support strategic decision-making. Strong background in Looker, BigQuery, and cross-functional collaboration within fast-paced healthcare and enterprise environments.

## WORK EXPERIENCE

### Senior Analytics Engineer

Cardinal Health | Beirut, Lebanon Nov 2023 – Present

Built and optimized executive Looker dashboards tracking patient safety and financial KPIs across business units.

Designed scalable data models and advanced LookML, implementing caching and persistent derived tables to improve performance.

Optimized complex SQL queries and supported data orchestration workflows using Airflow.

Partnered with cross-functional teams to translate business requirements into scalable analytics solutions.

### Business Intelligence Developer

Globemed Group | Beirut, Lebanon Jun 2022 – Nov 2023

Developed QlikView, QlikSense, and Tableau dashboards for HR, finance, and management reporting.

Designed and maintained ETL pipelines using Talend and Oracle (PL/SQL) to ensure data accuracy and automation.

Integrated BI tools with enterprise databases and supported Agile delivery using Jira.

### Business Analyst Intern

PFC International | Beirut, Lebanon Aug 2021 – Dec 2021

Conducted feasibility and competitive analysis for a dual-concept retail project.

Performed market demand forecasting and CAGR analysis for Qatar's residential real estate sector.
